To whom it may concern,

My name is Kristin Brumley, owner of a small marketing and media company called Cake Golem Productions LLC in Columbus, Ohio. I had the incredible pleasure of working with Samantha Yeager on a contractual basis for several months, and am writing to inform you of her superior quality as an artist.

**Professional:** Sam was, from the very beginning, a true professional. I hired her to help develop a mobile game user interface, and she was always organized, communicative, and on-time with her delivery. I never had to worry that the work would be done. Sam was very good about keeping me updated throughout the project, and I always felt comfortable giving her some direction and allowing her to work on her own.

**Creative:** Sam delivered top-quality artwork. For the time and budget that we had, she was able to find ways to effectively balance what we envisioned and what could be delivered. I liked how she could take my directions and give my ideas life.

**Great Energy:** Sam has an amazing attitude and an enthusiasm for her work. I loved having her work for me! I truly wish I could hire her full time (if only I had more work to give!). If you're looking for someone who will give some positive energy to the workplace, she's the person to hire.

I hope this insight helps shed some light on Sam. I want to stress just how positive an experience it was to work with her! I've worked with other designers, but Sam is by far my favorite.

Wishing her all the best!
